

CAPE FARM SUPPLY AND CRANBERRY COMPANY

Winter 2012 Newsletter

We would first like to start by wishing everyone a healthy and happy start to the New Year in 2012. Winter has finally set in on the farm and as you can imagine things have slowed down a bit. It's just a few pigs and goats and the chickens hanging around the farm through winter.

Although the amount of outside work has subsided we are beginning to sell our Harwich raised pork and lamb. Our meat is available in a variety of individual retail cuts. We also have a selection of smoked pork products.

Our pigs are raised on dirt and fed an assortment of grain, fresh vegetables, and day old bread. Below is a sample of what the pigs daily meal consists of. Notice the whole pumpkin, which by far is a favorite.

Please come by and see us at the farm for some fresh locally raised pork and lamb. We also will have some cranberry related products for sale as well. The farm stand is located at 374 Main Street in Harwich. The stand is directly in front of the farm and will soon be open from 9-12 on Saturday and Sundays.
